A photograph of three students working on a robotics project. In the foreground, a student in a green turtleneck is focused on connecting black wires to a small electronic device. Behind them, a student in a yellow sweater is also working, and further back, a student in a red plaid shirt is visible. The table is covered with various electronic components, wires, and tools. The background is bright and slightly out of focus.

TRAINING AND INTERNSHIP PROGRAM

About us

"Krutanic Solutions is at the forefront of transforming education through cutting-edge technology. Our comprehensive platform empowers learners with personalized learning experiences, collaborative tools, and real-time analytics. With adaptive assessments and interactive content creation, we enhance student engagement and achievement. Join us in revolutionizing education for the digital age, driving positive outcomes and preparing learners for success in tomorrow's world. "

UI / UX

Why UI / UX ?

- ☁ **UI/UX design is crucial for creating user-friendly digital experiences, making skilled designers highly sought after in tech.**
- ☁ **UI/UX designers are well-compensated for their creativity and expertise, with roles offering competitive pay across industries.**
- ☁ **UI/UX design combines art and functionality, offering a chance to work on innovative digital products and services.**
- ☁ **As user experience becomes a priority worldwide, UI/UX designers have opportunities to collaborate internationally and work remotely.**
- ☁ **UI/UX professionals play a key role in shaping the interface of emerging technologies like AR/VR and mobile apps.**
- ☁ **With businesses prioritizing customer experience, the demand for skilled UI/UX designers will continue to grow, ensuring career stability.**

1ST MONTH

LIVE SESSIONS

Live sessions with industrial experts having experience above 10 years in the industry.

RECORDINGS

Recordings of all live sessions available with lifelong access in our LMS portal.

INDUSTRY RELATED

Industry related curriculum designed by the working professionals in the top hierarchy.

ND 2 MONTH

REAL TIME PROJECTS

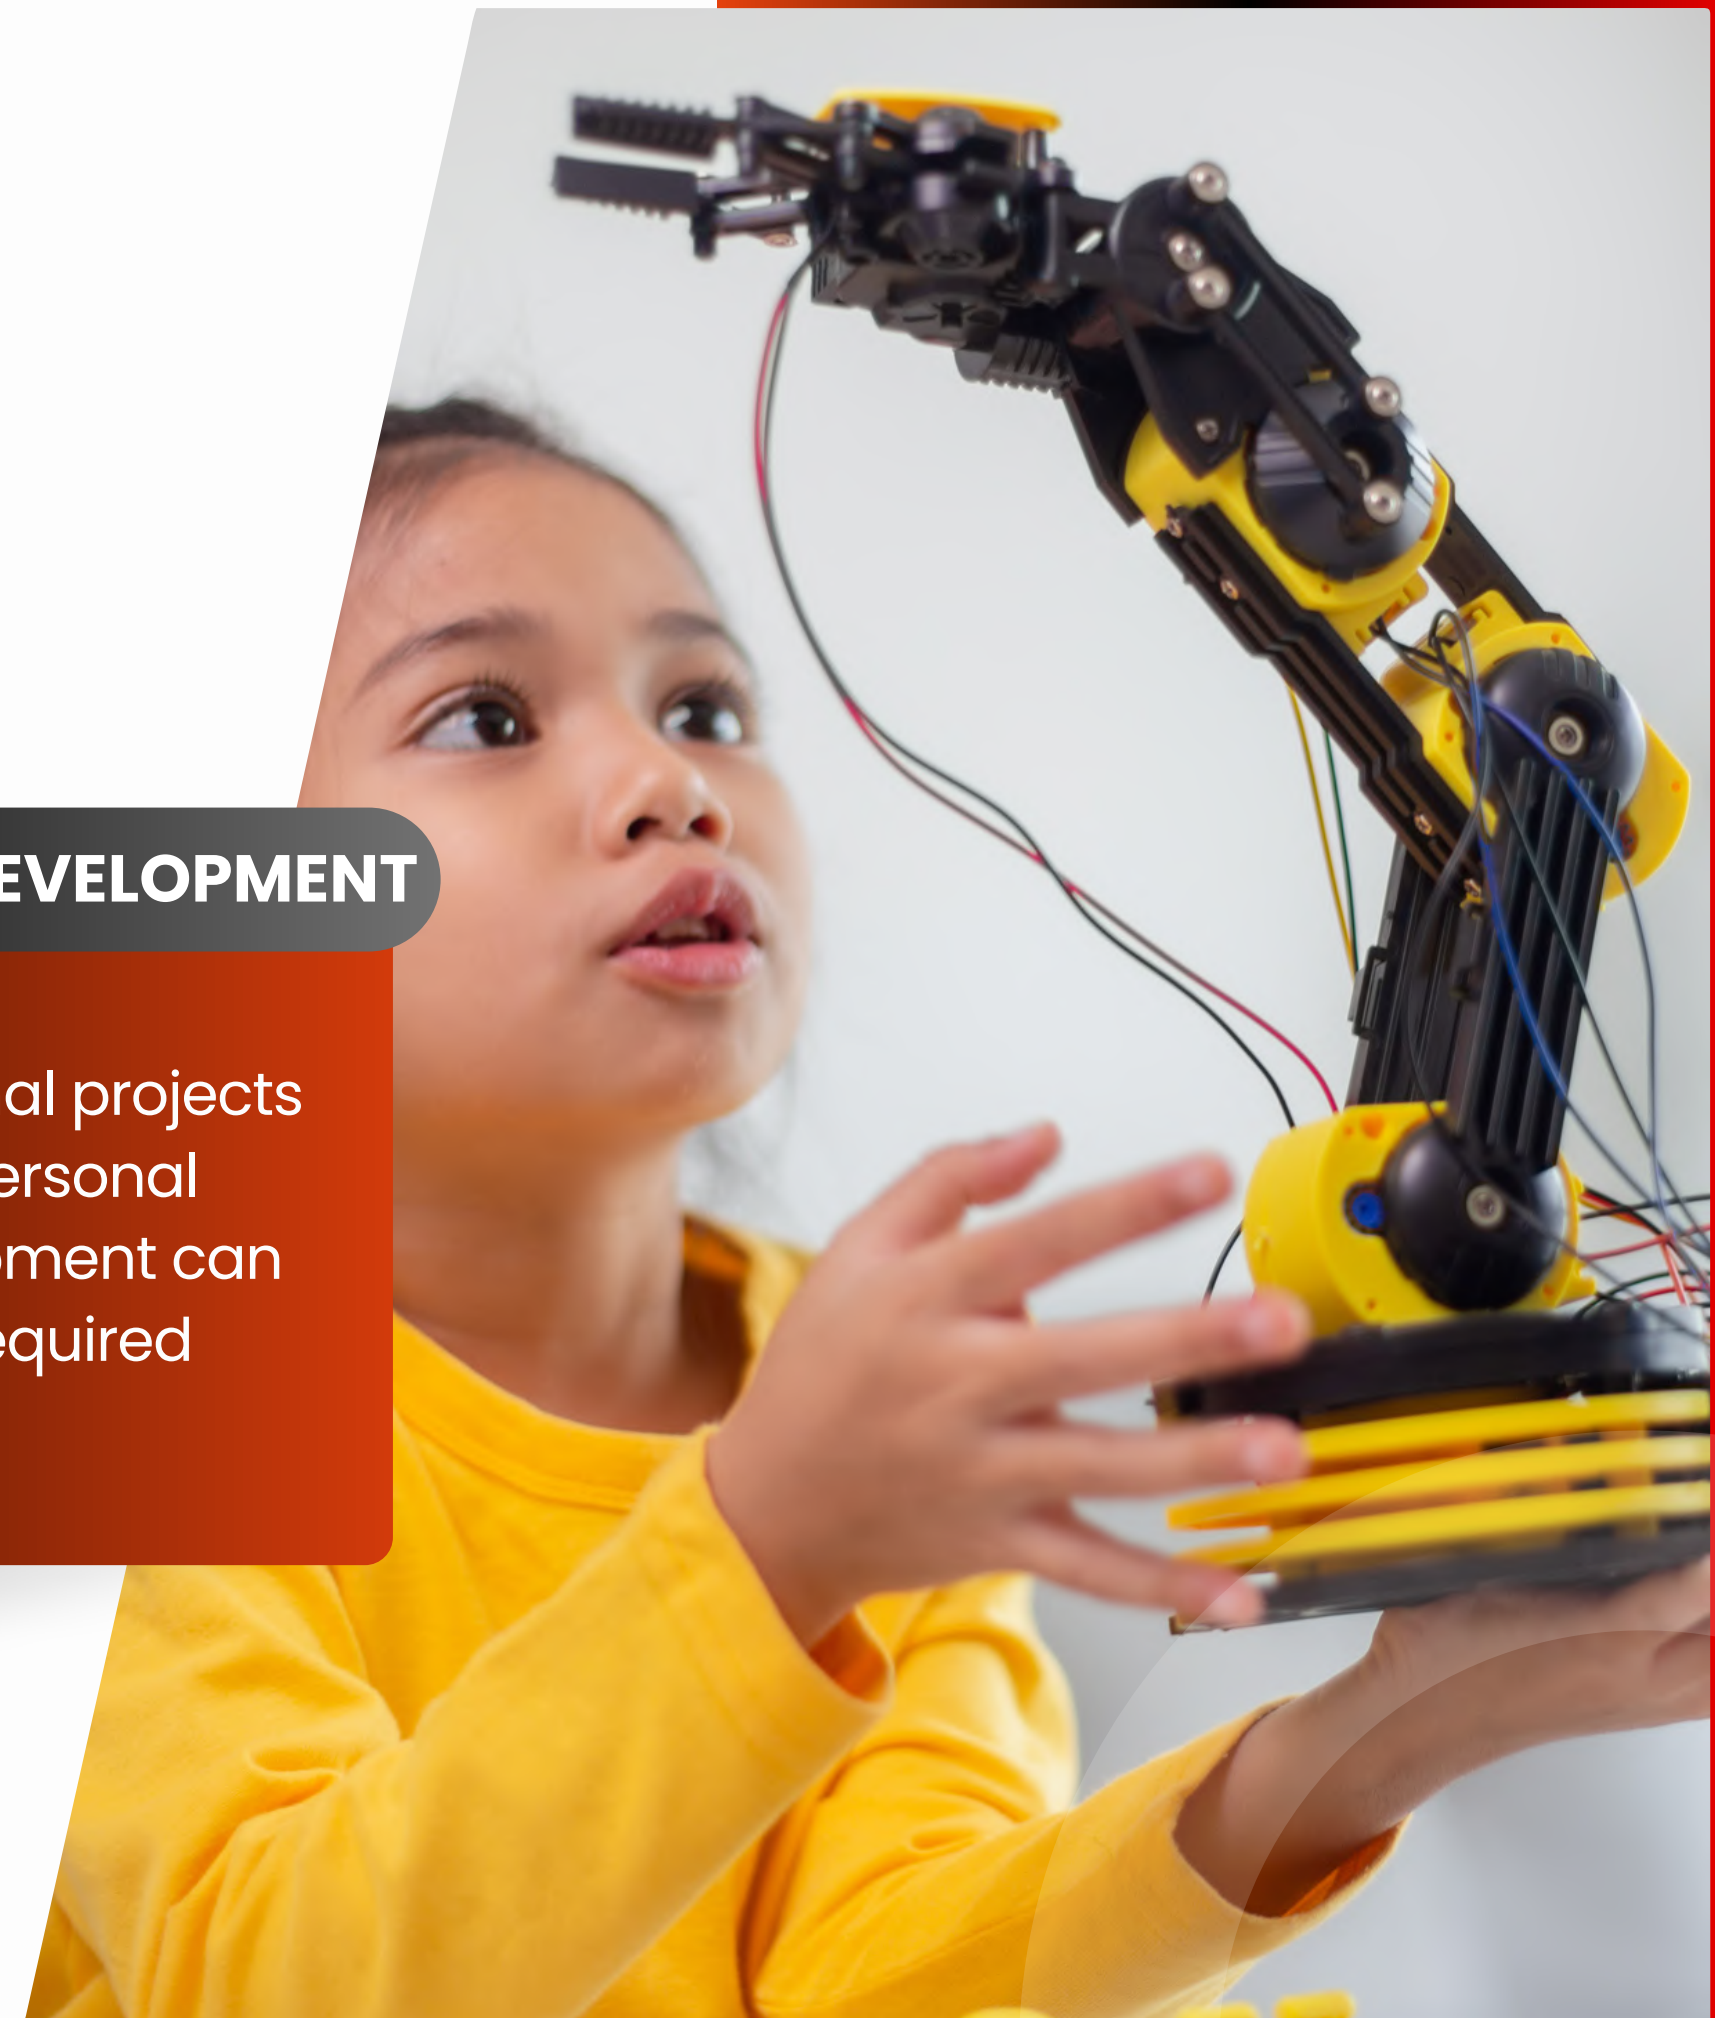

Two real time industrial projects One minor project and One major project

ASSISTANCE

All mentors will be assigned as project leads and guide the intern till the completion of the project

PERSONAL DEVELOPMENT

Additional projects for personal development can be required

Curriculum included

MODULE 1

Introduction to UI/UX Design
Overview of UI/UX design principles and processes
Importance of user-centered design
Introduction to design thinking methodology.

MODULE 2

Understanding Users, User research methods (interviews, surveys, personas, etc.)
User journey mapping and user flows
Conducting usability testing and gathering feedback.

MODULE 3

Design Principles of visual design (layout, typography, color theory)
Gestalt principles and their application in UI design
Applying design principles to create visually appealing interfaces.

MODULE 4

Wireframing and Prototyping Basics of wireframing and prototyping tools (Sketch, Adobe XD, Figma, etc.)
Creating low-fidelity wireframes for web and mobile interfaces
Prototyping interactive designs for usability testing.

Curriculum included

MODULE 5

Information Architecture
Understanding
information hierarchy and
organization Creating
sitemaps and navigation
structures Designing
intuitive user interfaces
with clear information
architecture.

MODULE 6

Visual Design for UI
Advanced techniques in
visual design (grids,
spacing, alignment)
Creating high-fidelity
mockups and visual
prototypes Designing for
accessibility and inclusive
design principles

MODULE 7

Interaction Design Principles of
interaction design Designing
interactive elements (buttons,
forms, animations)
Microinteractions and their role
in enhancing user experience.

MODULE 8

User Interface Testing and
Evaluation Conducting
usability testing on
prototypes Analyzing user
feedback and iterating
designs Introduction to
A/B testing and analytics
for UI/UX optimization.

Curriculum included

MODULE 9

Design Systems and UI Libraries
Introduction to design systems and UI libraries
Creating and maintaining design systems for consistency and scalability
Collaborative design workflows using version control and collaboration tools.

MODULE 10

Responsive Design and Mobile UI/UX
Principles of responsive design for multi-device compatibility
Designing mobile interfaces for iOS and Android platforms
Mobile-first design approach and best practices.

MODULE 11

Portfolio Development Building a UI/UX design portfolio
Showcasing projects and case studies
Presenting and defending design decisions.
MODULE 12: Career Paths and Industry Trends
Overview of career paths in UI/UX design
Industry trends and emerging technologies
Networking and job search strategies.
